Now, let's chunk it down to specific goals.

The impact I want to have realized by December 31, 2025, is:

- Example: Earn \$50,000 by serving 50 or more clients
- Example: Have my book published and read by 300 people
- Example: 25 people have reduced their body fat and improved their overall health
- Example: 1,000 women are engaged in my FB group, programs, products, and services
- Example: Have delivered 25 presentations sharing my message for impact

I know I will have realized this goal when:

What is the very last step in the process of achieving this goal? What specifically will have to have happened for you to know you achieved this goal?

- Example: When I look in my bank account and see \$50,000 having been deposited through the year.
