Hi \_\_\_\_ [insert name]

Have you ever noticed that the results you get are directly related to the choices and actions you take? (Since you're on my list of connections, I'm pretty sure that you have!)

I wanted to let you know about a free online class that will boost your results by "UN-LEARNING" a few things that my friend, mentor and colleague, Nancy Matthews is hosting on Tuesday, August 6th.

Nancy is one of the Co-Founders of Women's Prosperity Network (an amazing global community of impact-focused entrepreneurs), an NLP Master Practitioner and is brilliant when it comes to marketing and sales from a heart-centered, non-salesy perspective.

When she told me about this upcoming class and the focus of "UN-LEARNING" to get better results, I just had to share it with you. Here's why...

You've probably heard (and likely believe) that our thoughts become our words, our words our actions and our actions our habits.

Our thoughts create the words we use.  
Our words create the actions we take.  
Our repeated actions become our habits.  
And, our habits create our results.

When was the last time you paused to review the results you're getting through this lens?

Many of us are accustomed to doing this when it relates to:

- Weight loss or gain ... we know to look at our eating and exercise habits when we want to make a change.

- Feeling tired, unfocused or cranky ... we know to look at our sleep habits to ensure we are giving our bodies enough rest.

But, when was the last time you looked through this lens at the issues of:

- Not earning as much income as you want or need.
- Feeling frustrated or disappointed that people don't seem to 'get you' and/or what you have to offer
- Stress, struggle and overwhelm in trying to make a difference in the lives of more people ... you seem to be 'doing' all the right things, but it's just not working!

During the free class with Nancy on August 6th (CLICK HERE [insert <https://iw137.isrefer.com/go/sv2/> add your code] for all the details) you'll get to:

- Un-Learn what you think it takes to be great at sales (eliminating old beliefs and the need for slick sales tactics)
- Understand how showing up in SERVICE to others brings win-win-win scenarios (and more money in your bank account)
- Uncover what to say and how to say it so that you can double, triple or even quadruple your sales!

Nancy's classes fill up very quickly and space is limited. Be sure to register now to save your spot so that you will be able to create better results for yourself and for all those you're here to serve!
