Hi ____ [insert name]

This Monday, August 10th, my friend and colleague, Nancy Matthews, is hosting a free masterclass called "Reject Rejection! The Keys to Handling Objections & Concerns to Get More "Yesses!"

You may have noticed she didn't say "OVERCOME" objections and there's an important reason for that.

Overcoming objections is the OLD way of doing business ... that just doesn't fit for today's impact-focused entrepreneurs. We want to create win-win-win relationships with the people we serve.

Overcoming infers that you're trying to convince or persuade someone to do something they may not want to really do. (And nobody likes that!)

The truth is that people will have concerns or questions before making a buying decision and that's actually a good thing! We want clients who are thoughtful, committed, and ready to take action, don't we?

Join Nancy for this powerful Masterclass where you'll learn:

- The 5 objections inherent in every sale (so that you're prepared in advance to handle them)
- The best and easiest way to have objections and concerns melt away, and
- How to move beyond the "No" to open up new possibilities

This class will support you to be fully equipped to have powerful sales conversations with confidence and clarity that create real win-win-win scenarios!
